District alignment is reviewed annually and has been shared with many leaders and members throughout the District. Following the guidelines the committee is working on the most effective way possible according to *Policy and Protocol 7.0 District Structure, Club assignments* in the Governing Documents to align with the least disruption which benefits the whole district and the members. The alignment committee has discussed club growth, club loss, geographic location, area director input, prospective clubs and expected growth, and the distinguished programs. All areas must consist of 4-6 clubs and can only have 3 clubs if an effort to charter a 4th club is in progress. A robust discussion took place on the 6th April with Area directors and Division directors which was taken back again to clubs for comment and final alignment changes will be made on the 18th May at the District Council Meeting.
